

Imports from Japan

Dear Sir or Madam,

We are following with tremendous dismay the current events in Japan.

Our deep sympathy is with all victims and their families, our colleagues and friends in Japan and the whole Japanese people in these difficult times.

From today's point of view we do not see any impairment regarding our delivery capacity as we do not purchase any raw materials from Japan.

Furthermore we are in close contact with our raw material suppliers – especially in neighbouring countries such as China, Thailand, Indonesia, Vietnam, Philippines, Taiwan, Korea, America, Alaska, Canada, New Zealand and Australia – in order to ensure that no contaminated products from the region affected are delivered by pre-products from our raw material suppliers.

At the moment enquiries with our partners regarding this topic are already underway.

We certainly continue observing the situation in Japan and we will react on all possible changes with reasonable care and we will keep you informed.

Please check out the following link of the customs office with a statement regarding import of goods:

http://www.zoll.de/a0_aktuelles/a0_meldungen/vub_stoerfaelle_jap_atomanlagen

For more information, please check out the website of “Bundesamt für Strahlenschutz” (federal office of radiation protection):
